Thomas A. Lake

Postdoctoral Researcher, Center for Geospatial Analytics
North Carolina State University
✉ Talake2@ncsu.edu ⌨ lake-thomas

Education

PhD, Plant & Microbial Biology   2018-2023
University of Minnesota Twin Cities, Minneapolis, MN
  Thesis: Improving predictive models of range expansion in invasive species
  Advisor: Dr. David Moeller

BS, Conservation Biology   2013-2017
Minor: Geographic Information Sciences
University of Minnesota Twin Cities, Minneapolis, MN

Research & Teaching

Postdoctoral Researcher, North Carolina State University, Raleigh, NC   2023-present

Graduate Research Assistant, University of Minnesota   2021-2023

Teaching Assistant, "Plant, Algal, and Fungal Diversity and Adaptation"   2019 - 2020
        University of Minnesota (PI: D. Moeller)

Teaching Assistant, "Foundations of Biology", University of Minnesota   2019

Researcher 1, USDA ARS Cereal Disease Lab, St. Paul, MN   2017-2018

Teaching Assistant, "Plant Immunity Gene Discovery", University of Minnesota   2017

Undergraduate Research Assistant, University of Minnesota   2016-2017

Undergraduate Research Assistant, University of Minnesota   2015-2016

Grants, Fellowships, & Awards

NASA-MSU Professional Enhancement Award, NASA-Michigan State University   2024
    $850. "Detecting invasive trees with computer vision"
    Travel award for outstanding junior scholars.

Doctoral Dissertation Research Fellowship, University of Minnesota Graduate School   2022-2023
    $35,000. "Predicting biological invasions using remote sensing and artificial intelligence"
    Competitive internal fellowship, stipend, and tuition for "most accomplsihed PhD candidates".

Climate Innovation Challenge, Google   2022-2023
    "Remote sensing biological invasions using high resolution imagery and deep learning"
    $13,500 equivalent in Google Cloud research credits.

Hatch Grant, USDA National Institute of Food and Agriculture (PI: D. Moeller)   2021-2023
    "Remote sensing biological invasions: Using satellite imagery to detect and monitor
    $65000."Remote sensing biological invasions: Using satellite imagery to detect and monitor
    leafy spurge population dynamics across the Northern Great Plains"
    Contributed to grant writing and submission, awarded $65,000 for research.

Bill Dahl Graduate Student Research Award, Botanical Society of America   2020-2021
    $1,500. "Does adaptation facilitate or impede future plant invasions"
    Award to support PhD field research in adaptation and climate change study.

Bell Museum Dayton Natural History Award, University of Minnesota — 2020-2021
$2,500. "Does adaptive genetic differentiation facilitate or impede future plant invasions"
Award supporting PhD field research and conference travel.

Earth Observation Grant, European Space Agency — 2020-2021
"Population monitoring of invasive species using satellite imagery"
$12,000 equivalent in access to high resolution satellite imagery.

Accelerated Data Science Grant, NVIDIA — 2019-2020
$1,000. Gifted graphics processing unit (GPU) to accelerate deep learning model development.

Grants-in-Aid, University of Minnesota — 2019-2022
$2,000 total. Four small internal grants supporting field research and travel.

Conference Travel Awards, University of Minnesota — 2018-2022
$3,000 total. Three awards for domestic and international conference travel.

Undergraduate Research Opportunity Program, University of Minnesota — 2016-2017
$3,600. Pilot award for independent research in plant breeding and cytogenetics.
